Docket P17837

Amendments to the Specification:

On page 9, please replace paragraph [0023] with the following paragraph where deleted text is in strike-out font and added text is in underline font:

--In one embodiment of the present system and method, resuming from the S4 state is preferable to resuming from S3, i.e., hibernate over standby. S3 resumes faster, but it requires more power. S3 S4 is a better choice for power saving. Present ~~However,~~ ~~present~~ systems cannot share memory, so resuming from S3 to another operating system is not currently feasible.--
